

Old Town Center Sign Policy for Permanent Tenant Identification Signs

On December 18, 1984 the Design Review Commission approved the following for the Old Town Center:

Permanent signs consistent with existing signs in the Old Town Center may be approved by the City staff without appearing before the Commission.

Below are the size, shape and colors to be used in the Center. Sign on Building 2157 may be smaller in size. Signs are erected above the business entrance and the hangers must be sturdy to prevent signs from swinging.

Size and Shape of Sign
