 November 25, 2014

To the Citizens and Aldermen City of Germantown, Tennessee:

It is a privilege to submit the Comprehensive Annual Financial Report of the City of Germantown for the fiscal year ending June 30, 2014. This document reports the sound financial position of the various funds of the City of Germantown and the financial results for operations during FY14. It also provides information on the economic condition of the City.

GERMANTOWN'S ECONOMIC CONDITION AND OUTLOOK

Germantown is a dynamic community whose citizens enjoy a higher per capita income than most cities in Tennessee. Although it is predominantly, preferably and historically residential in character, we are experiencing significant economic growth and expansion of healthcare facilities in the City. Additionally, Germantown benefits from its proximity to the transportation, industrial and commercial sectors of the Memphis metropolitan area.

With a sturdy local economy and sound fiscal planning, the City of Germantown maintained a General Fund fund balance of 57.0% against operating expenditures in FY14. The City also maintained a Triple-A debt credit rating with Moody's and Standard & Poor's, one of just 84 municipalities in the nation to merit the highest ranking from both agencies.

Our growth and prosperity can be further attributed to the manner in which residents and local government work together to

- support superior public education opportunities for children,
- □ keep the crime rate lowest among similar-sized cities in the Southeast,
- provide exceptional parks and recreation facilities and leisure opportunities.
- assure safe and attractive neighborhoods and business districts, and
- exercise strong leadership in both land use policies and financial planning.

Germantown's municipal services and amenities contribute to the exceptional quality of place its residents enjoy; they also contribute to the attractiveness of the metropolitan area. Quality housing is a major "industry" for Germantown, ranging from single-family subdivisions to zero-lot lines to congregate living for seniors. Newer home construction supplements a housing inventory in both new and well-established neighborhoods that reflects exemplary efforts to preserve and modernize older homes.

Our commitment to quality living is demonstrated in the extensive parks system, composed of athletic and playing field complexes, comprehensive parks, neighborhood parks, a greenway, state natural area, city

nature area and a farm park. The Germantown Athletic Club and other programs offer fitness facilities and equipment for a healthy lifestyle. Methodist LeBonheur Germantown Hospital, Baptist Rehabilitation-Germantown, several major medical clinics and numerous physician practices provide top-notch, accessible health care. Both police and fire departments take pride in a five minute-or-less emergency response time. The newly-formed Germantown Municipal School District provides K-12 public education on five campuses, complemented by three private elementary schools, three additional public schools, three special needs learning centers and a university, together offering the broadest spectrum of educational resources.

OUR POLICY AGENDA

Each January, the Board of Mayor and Aldermen establishes a policy agenda that identifies and articulates primary goals for the immediate future and for the long term. The values and vision are derived from the long-range strategic plan—Vision 2020—developed through broad citizen input and adopted by the board during FY06.

The annual policy agenda guides the development of the annual operating and capital improvement budgets for the next fiscal year. The agenda is developed within the framework of the Board of Mayor and Aldermen's financial policies, policies that dictate

- a balanced, multi-year operating budget,
- a stable and diversified revenue structure,
- maintenance of adequate reserves and designation of fund balances,
- a multi-year capital improvements program, and
- debt and investment policies ensuring judicious management of the City's credit and available funds.

This report, the operating budget and the capital improvements program demonstrate Germantown's responsiveness to citizen's needs, concerns and interests. The reports and the awards they have earned also confirm our commitment to excellence and performance and to effective and efficient management of Germantown's affairs.

Respectfully submitted,

Sharon Goldsworthy

November 25, 2014

The Board of Mayor and Aldermen
And Citizens of the City of Germantown:

The Comprehensive Annual Financial Report, (CAFR) of the City of Germantown, Tennessee (The City) for the fiscal year ended June 30, 2014, is hereby submitted. The financial statements are presented in conformity with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB) and have been audited in accordance with the generally accepted auditing standards.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's asset from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Watkins Uiberall, PLLC, Certified Public Accountants, have issued an unmodified ("clean") opinion on the City of Germantown's financial statements for the year ended June 30, 2014. The independent auditor's report is located at the front of the financial section of this report. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2014 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements: assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement basis for rendering an unmodified opinion.

GAAP requires management to provide a narrative introduction, overview and analysis to accompany the basic financial statement in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in

conjunction with it. The City of Germantown's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Germantown is located in Shelby County in the southwestern part of the State of Tennessee. Germantown was first settled in 1825 and consisted largely of horse farms and estates until the early 1970's. It is in the center of the most affluent areas of Shelby County.

The Board of Mayor and (five) Aldermen are elected by popular vote. One-half of the Board is elected to four-year terms every two years. The mayor appoints the city administrator, chief of police and city clerk/recorder with confirmation of the Board of Aldermen. The City provides a full range of municipal services including police and fires services, street and drainage construction and maintenance, sanitation, cultural and recreational programs, planning and zoning and administrative services. In addition, the City operates a water and sewer system.

The Shelby County Board of Education provides educational services to students within the jurisdiction of the City of Germantown. The County school system is part of the Government of Shelby County. The Light, Gas and Water Division of the City of Memphis provide electrical and natural gas distribution to the Germantown service area. The City of Memphis provides treatment of sewage collected via the City of Germantown sewer system. The Memphis Area Transit Authority provides scheduled bus service throughout the City. These entities do not meet established criteria for inclusion in the reporting entity and therefore are not included in this report.

The city administration annually prepares a plan of services for the upcoming fiscal year and the estimated cost of providing those services. The plan is reviewed by the Board of Mayor and Aldermen and is formally adopted by the passage of a budget ordinance. The ordinance is adopted by fund, function and department. Department heads may make transfer of appropriations within their department. Transfers of appropriations between departments require the approval of an amendment by the Board. Strict budgetary compliance is maintained by the automated accounting system to assure effective fiscal management and accountability. All request for purchases are checked by a budgetary control system to assure that funds are available. Purchase orders and contracts are encumbered prior to release to vendors. The system controls are maintained within cost center levels. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated budget has been adopted.

Factors Affecting Financial Conditions

The information presented in the financial statements are perhaps best understood when they are considered from the broader perspective of the specific environment within which the City operates.

Local Economy

The City has shown stabilization and improvement in the last year. Property values have stabilized within the City and construction of new properties has begun. Property tax remains the most stable source of revenue at approximately 61.7% of total general fund revenue with collections remaining very strong. The City approved a tax increase in fiscal year 2014. The new tax rate is \$1.93 per \$100 of assessed value. Real and personal property are assessed by the Shelby County Assessor. Sales tax is the second largest revenue source to the City. Sales tax increased by 3.0% over the past year. With the economy improving, the Halls Income tax decreased \$453,143. However the Halls Income tax remains higher than in previous years. The City of Germantown has a strong retail climate although the City is primarily a bedroom community. Emphasis is being placed on bring more retail into the City.

During Fiscal Year 2014 the City issued 51 permits for new single family residence structures with a value of \$23,278,435 or average value of \$456,440. During Fiscal Year 2014, the focus began with our Western border, with business agreeing to participate in the redevelopment processes. Smart growth is beginning to find momentum within the City limits as business expect growth within the community in the future. During FY15 new developments projects began with Whole Foods developing a store. Saddle Creek South has began to remodel the outside of stores and new develops have begun in Saddle Creek South. A four story hotel is planned within the Heart of the City of Germantown and a 5,000 square foot jewelry store and mixed used businesses. As can be seen within the center of the City, businesses are beginning to apply for building permits. The Smart Code initiative and development must apply to all future buildings. This will begin the revitalization of the center of the City. There is a planned development with 43 new homes having an average price of \$500,000.

State Legislation was changed to allow the City to have a municipal school system. Elections were held for a five member school board in November 2014. A superintendent was hired in January 2015 to operate the Germantown Municipal School District which will begin operations in August 2015.

Long Term Financial Planning

Since the adoption of Vision 2020 in 2005, the Board of Mayor and Aldermen have conducted semi-annual retreats in January and August to review and revisit the strategic planning process to ensure the City maintains its focus on the vision, mission and core values. The results from the retreat are used to direct the strategic objectives, departmental business plans, the annual budget, five-year financial plan and five-year CIP. These plans are based on the triple bottom line (Economic, Environmental, and Social Sustainability) and are driven by key indicators with progress measured by the achievement of performance measures.

The City's fiscal year spending plan emphasizes a long-term goal of maintaining financial stability. As a result, the City quickly embraced the practice of managed competition and applied those principles to build-out scenario for our community. Managed competition focused on cost control and reductions when appropriate, reengineering procedures or outsourcing.

Annual budget are now driven by cost saving with emphasis on City departments operating as a business with focus on customer and quality of service. All expenditures reflect the spending priorities established by the Board of Mayor and Aldermen and strict adherence to the financial policies that provide a framework for allocating resources. The business planning approach is outcome based and results oriented, with process in place to deliver services in the most effective way. With the proper deployment of these activities now and in the future the City is able to address long term financial obligations of the City, maintain a stable tax base and move closer to sustainability.

The City was reaffirmed as Triple-A by Moody's and Standard & Poor's in September 2013. On September 23, 2013 the City refunded its 2005 bonds for a better interest rate and issued new bonds in the amount of \$3.5 million. The refunding of the 2005 bond had a present value saving to taxpayers of \$360,412. These bonds are to fund capital improvements which include, but are not limited to improvements to and stabilization of various drainage laterals, construction of a new roadway to the Farm Park, and the extension of the Greenway along Wolf River Blvd.

Awards and Acknowledgement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Germantown for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2013. This was the 32nd consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirement and we are submitting it to GFOA to determine its eligibility for another certificate.

The Government Finance Officers Association of the United States and Canada (GFOA) has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to the City of Germantown for its Popular Annual Financial Report for the fiscal year ended June 30, 2013. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports.

In order to receive an Award for Outstanding Achievement in Popular Annual Financial Reporting, a government unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understanding and reader appeal. An Award for Outstanding Achievement in Popular Annual Financial Reporting is valid for a period of one year only. The City of Germantown has received a Popular Award for the last six consecutive years (fiscal years ended 2008-2013). We believe our current report continues to

conform to the Popular Annual Financial Reporting requirements, and we are submitting it to the GFOA.

The City received the GFOA's Distinguished Budget Presentation Award for its annual operating budget for the year ended June 30, 2013. The City has received the Award for each of the 29 years since the program was instituted in 1984. N order to qualify for the Distinguished Budget Presentation Award, the city budget document was judged to be proficient and/or outstanding in several categories including policy documentation, financial planning, operations and communications.

The preparation of this report could not be accomplished without the skill, effort and dedication of the entire staff of the Departments of Budget & Performance throughout the fiscal year. I would like to express my appreciation to all the members of the departments who have assisted and contributed to this report, in addition to the city's independent certified public accountants, Watkins Uiberall, PLLC. In addition, I appreciate the Board of Mayor and Aldermen's interest, support and leadership in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Ralph J Gabb, CPA Finance Director

INDEPENDENT AUDITOR'S REPORT

To the Honorable Sharon Goldsworthy, Mayor and the Board of Aldermen City of Germantown, Tennessee

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the statement of budgetary comparison for the general fund, and the aggregate remaining fund information of the City of Germantown, Tennessee, (the "City") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Germantown Performing Arts Center ("GPAC"), a component unit of the City of Germantown, Tennessee, which represent 0.4 percent, 0.4 percent, and 2.0 percent, respectively, of the assets, net position, and revenues of the City. Those statements were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for GPAC, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Germantown, Tennessee, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the general fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of public employee retirement system employer contributions, and schedule of other post-employment benefits funding progress as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Germantown, Tennessee's basic financial statements. The introductory section, combining and individual fund statements and schedules, supplementary schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements.

The combining and individual fund statements and schedules, supplementary schedules, and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules, the supplementary schedules, and the schedule of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2014, on our consideration of the City of Germantown, Tennessee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Germantown, Tennessee's internal control over financial reporting and compliance.

Memphis, Tennessee November 25, 2014

1) othins Viburall, PLLC

Management's Discussion and Analysis

As management of the City of Germantown (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and notes to the financial statements.

Financial Highlights

- The assets of the City exceeded its liabilities and deferred inflows of resources at June 30, 2014 by \$219,192,686 (net position). Of this amount, \$34,091,672 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- At June 30, 2014, the City's governmental funds reported total fund balances of \$31,057,937.
 Of this amount, \$6,295,396 (unassigned fund balances) may be used to meet the general governments spending requirements. The unassigned fund balance represents 14.9% of total General Fund expenditures.
- During the fiscal year, the City's total debt increased by \$4,125,436. The City paid down its bonded debt but incurred debt due to settlement with Shelby County Board of Education.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information to provide greater detail of data presented in the basic financial statements.

Government-wide Financial Statements. The government-wide financial statements are designed to provide the reader with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the year ended June 30, 2014. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include General Government, Public Safety, Community Services, Transportation and Environment, Education and Interest and Fiscal Charges. The business-type activities of the City include Utility, Athletic Club, and nonmajor Enterprise Funds.

The government-wide financial statements can be found in Exhibits A-1 and A-2 of this report.

Fund Financial Statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains fifteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund and other Governmental Funds. Data from the other fourteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with the annual appropriated budget.

The basic governmental fund financial statements are presented as Exhibits A-3 through A-7.

Component unit. The component unit is not a "fund" of the City of Germantown as the primary government. However, the government-wide financial statements include a column for the component unit as described in Note 1 – Summary of Significant Accounting Principles.

Proprietary Funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Utility, Athletic Club, Sanitation, Great Hall and Stormwater Funds operations.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for the health insurance and vehicle maintenance costs. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Utility Fund and Athletic Club Fund both of which are considered to be major funds of the City. In addition, the City has three non-major funds. These funds include the Sanitation, Great Hall, and Stormwater Funds. Conversely, both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in this report.

The basic proprietary fund financial statements are presented as Exhibits A-8 through A-10.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements are presented as Exhibits A-11 and A-12 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 53-87 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information regarding the City's annual pension cost and Other Post Employment Benefits, Exhibit B-1 and B-2.

Other Information. In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's progress in

funding its obligation to provide pension benefits to its employees and Other Post Employment Benefits. Required supplementary information is presented as Note 5 and Note 10 of this report.

Combining and Individual Fund Statements and Schedules. The combining statements referred to earlier in connection with non-major governmental funds, internal service funds and Statement of Changes in Assets and Liabilities Bail Deposit Agency Fund are presented immediately following the required supplementary information on pensions.

Combining and Individual Fund Statements and Schedules are presented as Exhibits C-1 through D-7 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities and deferred outflows of resources by \$219,192,686 at June 30, 2014.

	Govern Activ			ss-Type vities	Totals			
	2014	2013	2014	2013	2014	2013

Restricted	346,637	1,218,763	-	-	346,637	1,218,763		
Unrestricted	27,785,350	21,594,508	6,306,322	5,857,711	34,091,672	27,452,219		
Total Net Position	\$ 158,108,684	\$ 102,516,151	\$ 61,084,002	\$ 60,950,224	\$ 219,192,686	\$ 163,466,375		

By far the largest portion of the City's net position (84.3%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (.2%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$34,091,672) may be used to meet the government's ongoing obligations to citizens and creditors.

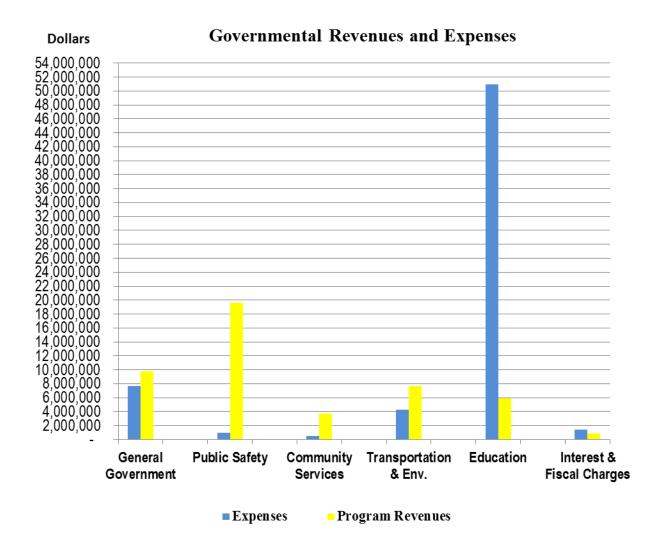

At the end of the current fiscal year, the City is able to report positive balances in both categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The positive unrestricted net position for governmental activities are

reflective of the City's practice of maintaining adequate reserves for payment of debt service and capital projects, while funding current operations with current revenue sources.

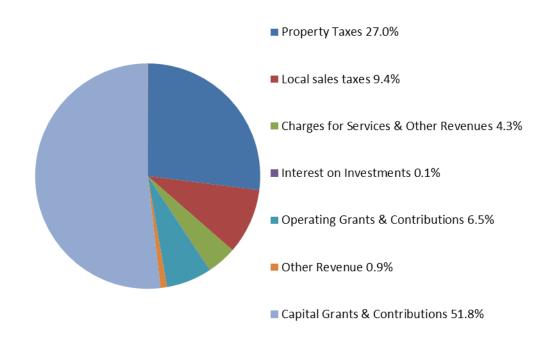

Governmental activities. Governmental activities increased the City's net position by \$55,592,533 from the prior fiscal year for an ending balance of \$158,108,684. Key elements of this increase are as follows:

	Governmental			Business-Type

Property Taxes increased to \$27,775,154, which is \$5,589,432 greater than FY13. Public Safety and Transportation and Environment increased by \$3,582,397 over the prior years. General Government decreased by \$5,269,766, Community Service decreased by \$529,212 and Interest and Fiscal Charges decreased by \$583,855. The Education line item is new as the City began the Germantown Municipal School District in FY14. The decrease in the General Government was due to a reallocation of the depreciation to Transportation and Environment. The net change in total expense is due to the decrease in the elimination of capital projects and the increase in allocation of internal service funds to the governmental funds.

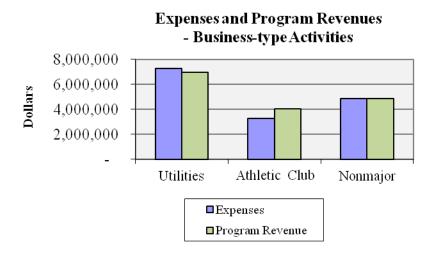

Governmental Revenues by Source

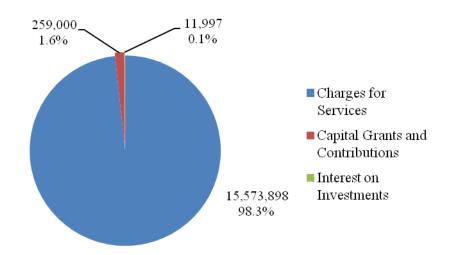

Business-type activities. Business-type activities increased the City's net position by \$133,778. The business-type activities are Utility, Athletic Club, and the Nonmajor Enterprise Funds.

- The Germantown Utility Fund decreased by \$885,743, due to lower revenues in water and sewer and increases in personnel cost, and sewer treatment fees.
- The Germantown Athletic Club net position increased by \$772,526 due to increased membership and controlling cost.
- The Nonmajor Enterprise Fund's net position increased by \$193,032 due to a transfer of \$175,000 to the Great Hall which had a loss of \$124,539. The Sanitation Fund had a positive net position of \$45,174. The Stormwater Fund fund had a positive net position of \$97,397.

Business-type Activities Revenue by Source

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2014, the City's governmental funds reported combined ending fund balances of \$31,057,937, an increase of \$6,195,200 in comparison with the prior year. Approximately 20.1% of this total amount of \$6,228,799 constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is made up of nonspendable (\$899,172), restricted (\$346,637), committed (\$19,634,138), and assigned (\$3,949,191) amounts. The General Fund is the chief operating fund of the City.

At June 30, 2014, unassigned fund balance of the General Fund was \$6,295,396 while the total fund balance reached \$24,069,837. As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance and the total fund balance to total fund expenditures. Unassigned fund balance represents 14.9% of total General Fund Expenditures, while total fund balance represents 57.0% of that same amount.

The fund balance of the City's General Fund increased by \$4,849,663 during the fiscal year ended June 30, 2014. Key factors are as follows:

- Property tax increased \$5,297,878
- Local sales tax increased \$690,197
- Intergovermental taxes decreased \$251,442
- Fines and Forfeitures decreased \$33,913
- Licenses and Permits decreased \$10,238
- Fees for services decreased \$6,876
- Investment income decreased \$15.068
- Grants decreased \$161,275
- Other revenue increased \$121,889
- Total expenditures increased \$3,382,313

Property tax increased due to an increase in the tax rate of \$0.445 cents per \$100 of assessed value. Local sales tax increased due to local sales tax increase of .5%. Intergovernmental taxes decreased due to lower than anticipated Halls taxes from dividends and interest paid to the state by citizens. Fines and forfeitures decreased due to city court cost and other court cost decreasing. This is due to fewer fines being assessed and collected. Licenses and permits decreased from the prior year in all categories. The largest decrease was automobile registration. Fees for services

MANAGEMENT DISCUSSION AND ANALYSIS For the fiscal year ended June 30, 2014

decreased due to engineering fees and library fees. The decrease was very moderate. Investment income decreased due to fewer investments and low interest rates. Grants decreased as there were fewer grants for the City to apply. The City has hired an individual to seek out grants.

Total expenses increased due to the increase of debt service payment. The City did a refunding issued of the 2005 Serial Bonds in the amount of \$5,670,000, thereby obtaining a better interest rate. The various departments within the City reduced their spending from the prior year.

The increase in fund balance is due to an increase in the tax rate of \$.445 per 100 dollars of assessed value and the increase in the local sales tax of 0.5%. In addition, the departments controlled their cost. Also, the City issued General Obligation Bond Series A and General Obligation Refunding Bonds Series B.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of \$6,250,790 is comprised of, \$3,074,608 for the Utility Fund, \$1,869,606 for the Athletic Club Fund, and \$1,306,576 for the nonmajor enterprise funds. User fees support these funds.

General Fund Budgetary Highlights

The General Fund revenues were higher than budget by \$1,562,548. The increase was due to higher property tax which had a rate increase of \$.445. The property tax came in higher than budget by \$347,130. Also, local sales tax came in higher than anticipated by \$368,614. The largest increase was the intergovernmental taxes of \$620,241. The Halls Income tax came in higher than anticipated. Halls Income tax is projected a year in advance and represents the interests and dividends paid to the state and remitted to the City. Fines and forfeitures exceed budget moderately at \$87,295. Licenses and permits as well as Fees for services exceeded budget by \$11,751 and \$32,204 respectively. Interest on investments and grants were under budget by \$14,056 and \$185,935 respectively. Investments were lower due to interest rates and the amount invested. Grants were lower as the City received fewer grants. Other revenue was up due to higher cable fees and miscellaneous revenue being received.

General Fund expenditures were lower than budget by \$2,234,310. The variances were due to the lower costs associated with concerted effort of City government to control cost. Also, the City has adopted a managed competition focus whereby, the City looks at dollar savings and efficiency of City services. The largest positive variance was in General Government in the amount of \$963,173. Savings were also achieved in Public Safety of \$745,772, Community Services \$250,963, Transportation and Environment of \$225,555 and Debt Service of \$48,847.

Capital Asset and Debt Administration

Capital Assets. The City investment in capital assets for its governmental and business-type activities as of June 30, 2014 amounts to \$215,329,102 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements other than building, machinery, equipment and construction in progress. The investment in capital assets for the current fiscal years increased \$53,291,634. Governmental activities increased \$54,633,613 or 54.0% and business activities decreased \$1,341,979 or 2.2%.

	Governmental			Business-Type								
		Activ	/itie	es		Activities			Totals			
		2014		2013		2014		2013		2014		2013
Land and Buildings	\$	79,812,235	\$	30,764,510	\$	13,436,559	\$	13,973,852	\$	93,248,794	\$	44,738,362

Total Capital Assets	\$	155,835,804	\$	101,202,191	\$	59,493,298	\$	60,835,277	\$	215,329,102	\$	162,037,468

Additional information on the City's capital assets can be found in Note 4-D of this report.

Long-term debt. At June 30, 2014 the City had total bonded debt outstanding of \$28,530,000. Of this amount \$23,885,000 comprises debt backed by the full faith and credit of the government and \$4,645,000 represents bonds secured by specified revenue sources (i.e., revenue bonds).

		nmental vities	Business-Type Activities	Totals			
	2014	2013	2014 2013	2014 2013			
General Obligation Bonds	\$ 23,885,000	\$ 23,105,000	\$ - \$ -	\$ 23,885,000 \$ 23,105,000			
Revenue Bonds			4,645,000 5,565,000	4,645,000 5,565,000			
Total Revenues	\$ 23,885,000	\$ 23,105,000	\$ 4,645,000 \$ 5,565,000	\$ 28,530,000 \$ 28,670,000			

During FY14, the City's total debt decreased by \$140,000. Total debt includes general obligation bonds and revenue bonds. Total debt for governmental activities increased by 3.4%. The increase was due to the issuance of General Obligation Bonds Series 2013A and General Obligation Refunding Bonds, Series 2013B. The City continues to pay down its new and existing debt. Business-type activities' debt decreased by 16.5%, due to the City not issuing Revenue bonds. Various construction programs were still in progress at the end of the current fiscal year.

The City has long held the highest bond rating on indebtedness from the major credit rating agencies. Factors most commonly cited by these agencies in support of its general obligation earned a triple-A bond rating from both Moody's and Standard & Poor's. In addition, the City has maintained a good relationship with the rating agencies and the major investment institutions through comprehensive disclosure of financial data and direct meetings with rating agency analysts. The City continues to follow prudent fiscal policies and practices.

Although the City is not subject to any state debt limits, the City has developed a debt policy that limits the amount of debt it may obtain: (1) net debt service may not exceed 12% of general fund expenditures; (2) direct debt may not exceed 4% of assessed property value; (3) direct debt may not exceed \$1,500 per capital income; and (4) per capital debt may not exceed 3% of per capital

income. The City's full faith, credit and taxing power are pledged to the repayment of all general obligation bond principal and interest and the City is contingently liable for the repayment of revenue bond principal and interest.

Additional information on the City's long-term debt can be found in Note 4-F.

Economic Factors and Next Year's Budget and Rates

Factors considered in preparing the City's Budget for the 2015 fiscal year are more fully discussed in the Budget document and included:

- The property tax is the most stable source of revenue for the City. There was no tax rate increase in the FY15 Budget. Other revenue sources are subject to some degree of fluctuation in economic cycles, and with the inclusion of a half cent sales tax increase, FY15 general fund revenues increased by 8.5% over FY14 estimate.
- The City initiated Managed Competition during FY07 with an emphasis on creating greater efficiency and cost control. The FY15 Budget reflects the continued emphasis on Managed Competition. A new tool being used in the strategic planning process to assess the community priorities is the Annual City Survey. This survey measures the citizens' satisfaction and importance for City functions.
- The City continues to look at new sources of revenue and grants to supplement the property tax values. The City will continue to review the systems and process in the delivery of its services and thereby control operating expenses.
- As economic times appear to be improving and new developments are on the horizon the
 City revised the FY15 budget. The City reviewed its expenses as it related to the growth
 and proving operating services levels to the business community and homeowners. Fire
 and emergency medical services, Police service, City Parks, Maintenance of streets and
 managing traffic flow continue to be of greatest importance to our citizens.
- The inclusion of a Germantown Municipal Schools System which had previously been a part of the Shelby County Schools System. The Germantown Municipal School System operates 5 schools with approximately 5,751students.

During FY12 the City implemented GASB 54. The unassigned fund balance in the General Fund is \$6,295,396. The City has a total approved budget of \$120,146,722 in expenditures for FY15. The large increase over the past year is due to the inclusion of the Germantown Municipal Schools. The City tax rate for FY15 remains the same as in FY14 at \$1.93.

Request for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to the

RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

June 30, 2014

Amounts reported for governmental activities in the statement of net position are different because:	
Total fund balances - total governmental funds	\$ 31,057,937
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	155,711,476
Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue in the funds.	624,097
Internal service funds are used by management to charge the costs of health insurance, and vehicle maintenance to other funds. The assets and liabilities of the internal service funds are included in the governmental activities in the statement of net position.	1,275,562
Long-term liabilities, including bonds payable, settlement liability, and compensated absences, are not due and payable in the current period and therefore are not reported in the funds.	(30,560,388)
Net position of governmental activities	\$ 158,108,684

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balance - total governmental funds	\$ 6,195,200
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	3,674,433
The net affect of various miscellaneous transactions involving capital assets (i.e., donations) is to increase net position.	50,968,000
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(854,015)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(4,477,939)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This is the change in compensated absences, including unpaid vacation and sick time.	(279,992)
Internal service funds are used by management to charge the costs of health insurance and vehicle maintenance to individual funds. The net cost of certain activities of internal service funds is reported with governmental activities.	366,846
Change in net position of governmental activities	\$55,592,533

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City of Germantown, Tennessee (the "City") was chartered in 1841 and incorporated in 1903 under the provisions of Chapter 550 of the Private Acts of the General Assembly of the State of Tennessee. The City operates under a Board of Mayor and Aldermen form of government. The Executive Branch is organized into the following areas: Finance and General Services, Development, Community Services, Fire, Police, Human Resources, Germantown Athletic Club and Germantown Performing Arts Centre.

As required by accounting principles generally accepted in the United States of America, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. The City's one component unit has a June 30 year-end and their separate financial statements are available as indicated below. The significant accounting policies followed by the component unit are generally the same as those followed by the primary government.

Discretely Presented Component Unit:

Germantown Performing Arts Center (GPAC) – GPAC has a cooperative agreement with the City to carry out a performing arts program that will foster and promote theatrical and musical performances to the community at the Germantown Performing Arts Center. GPAC is dependent upon the City for providing payroll, utilities, and other expenses as well as the building used by GPAC, which is owned by the City. In-kind contributions made to GPAC by the City during 2013 totaled \$1,123,346. Upon termination of this agreement, the City shall receive all assets and assume all liabilities of GPAC. GPAC is a 501(c)3 organization with separately issued financial statements which may be obtained from the Germantown Performing Arts Center, 1801 Exeter Road, Germantown, Tennessee 38138, (901)757-7500.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statements of net postion and the statement of activities) are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows of resources, with the differences presented as net position. Net position is reported as one of three categories: net investment in capital assets; restricted; or unrestricted. Restricted net position is further classified as either net position restricted by enabling legislation or net position that is otherwise restricted.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The City has one component unit, the Germantown Performing Arts Center, for which the financial information is reported separately from the information presented for the primary government.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the City gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Licenses and permits, fines and forfeitures, and miscellaneous revenues (except for investment earnings) are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the primary operating fund of the City and accounts for all financial resources of the general government not specifically provided for in other funds. Most of the essential governmental services such as police and fire protection, community services, and general administration are reported in the General Fund.

The City reports the following major proprietary funds:

The Utility Fund accounts for water and sewer fees in connection with the operation of the City's water and sewer system. The proceeds of several bond issues and intergovernmental loans have been used specifically for the construction or acquisition of water and sewer systems and facilities. Since it is the intention of the City to repay these bonds and loans through the operations of this fund, these obligations are classified as debt of this fund.

The Germantown Athletic Club Fund accounts for the operations of the Germantown Athletic Club, a recreation and cultural facility. The Athletic Club facility was financed through general obligation bonds and General Fund transfers. The City's intent is to operate the facility in a manner in which revenues cover operating expenses plus depreciation of the facility. However, the outstanding debt is to be paid by the General Fund and is therefore not carried as debt of the Germantown Athletic Club Fund. The General Fund made an advance to the Athletic Club facility for a 20-year term.

The City reports the following fund types:

Internal service funds account for health insurance and vehicle maintenance services provided to other departments or agencies of the government on a cost reimbursement basis.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Fiduciary Fund Types include Pension and Other Employee Benefit Trust Funds and Agency Funds. The Pension and Other Employee Benefit Trust Funds and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations and other governments.

Pension and Other Employee Benefit Trust Funds are accounted for on the accrual basis. Agency Funds are custodial in nature (assets equal liabilities) and generally are accounted for on the cash basis, which approximates the modified accrual basis of accounting.

The Pension Fund, a pension and other employee benefit trust fund, is used to account for the accumulation of resources to be used to provide defined retirement benefits to all qualified employees upon retirement.

The Other Post Employment Benefits Fund, a pension and other employee benefit trust fund, is used to account for the accumulation of resources to be used to provide health and dental benefits to all qualified retired employees.

The Bail Deposit Fund, an agency fund, is used to account for bail funds deposited by persons awaiting trial in City Court. The fund is purely custodial and thus does not involve measurement of results of operation.

Additionally, the City makes mention of these details on the following special revenue funds:

The Automated Enforcement Fund accounts for all expenditures and receipts associated with traffic camera fines and forfeitures. The City has conducted a study to see where the traffic cameras are best utilized. The City has conducted a study for the location of the traffic cameras. The final phase is the selection of a vendor. The City fully expects this revenue stream to increase and be sufficient to support the fund.

The Municipal Schools Fund accounts for all expenditures and receipts associated with the City's public school system. Fiscal year 2015 will be the first year of operations for the school system.

The Ambulance Fund accounts for all expenditures and revenues associated with ambulance fees and services. Fiscal year 2014 is the first year of operations. The City expects revenue to continue to increase and be sufficient to support the fund.

As a general rule the effect of interfund activity has been eliminated from the government – wide financial statements.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Utility Fund, Athletic Club Fund, Sanitation Fund, Great Hall Fund, and Stormwater Fund are charges to customers for sales and services.

The Utility Fund also recognizes, as operating revenue, the portion of tap fees intended to recover the cost of connecting new customers to the system.

Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it is the policy of the City to generally consider restricted amounts to have been reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the policy of the City that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts. In both instances, when a proposed expenditure is made with specific balances identified as the source of the funding, that specific fund balance will be used.

The City has implemented GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions. In the fund financial statements, governmental funds report the following classifications of fund balance:

- Nonspendable amounts that cannot be spent either because they are either in a
 (a) nonspendable form, including items not expected to be converted to cash, or (b)
 legally or contractually required to be maintained intact.
- Restricted amounts constrained to be used for a specific purpose as per external parties, constitutional provision, or enabling legislation.
- Committed amounts constrained to be used for specific purposes as per formal ordinance adopted by the Board of Mayor and Aldermen. Amounts classified as committed are not subject to legal enforceability like restricted resources; however,

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

they cannot be used for any other purpose unless the Board removes or changes the commitment by taking the same action it employed to impose the commitment.

- Assigned amounts intended to be used by the City for specific purposes, but are neither restricted nor committed. The intent shall be expressed by the Board of Mayor and Aldermen or an official delegated the authority to assign by the Board of Mayor and Aldermen for a specific purpose in accordance with the policy established by the Board of Mayor and Aldermen. The nature of the actions necessary to remove or modify an assignment is not as rigid as required under a committed fund balance classification.
- Unassigned amounts available for any purpose in the General Fund.

D - Assets, liabilities and fund balances/net position

1. Deposits and investments

The City considers all highly liquid investments with an original maturity of three months or less when purchased to be cash and cash equivalents.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Investments are stated at fair value. Cash equivalents held by the trustee of the Pension Fund and the Other Post Employment Benefits Fund are included in cash and cash equivalents.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

All trade and property taxes receivable are shown net of an allowance for doubtful accounts.

Taxes are due December 1 (levy date) and are considered delinquent after February 28 (lien date), at which time penalties and interest are assessed.

3. Inventories and prepaid items

Inventories are valued at cost (first-in, first-out). Inventory in all funds consists of expendable supplies held for consumption. In the General Fund, the cost is recorded as an asset at the time individual inventory items are purchased. The reserve for inventories in the General Fund represents a portion of the fund balance that is applicable to future accounting periods.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Restricted assets

Restricted assets in proprietary funds represent cash on deposit with paying agents primarily restricted for the principal and interest requirements of long-term debt.

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., streets, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Such assets in excess of \$5,000 are recorded at historical cost or estimated historical cost if purchased or constructed. Contributed capital assets are recorded at estimated fair market value at the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

Buildings	25-50 years
Improvements	10-60 years
Infrastructure	50 years
Machinery and equipment	3-15 years

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

6. Compensated absences

Compensated absences for accumulated unpaid vacation and sick time are accrued when incurred in the government-wide and proprietary fund financial statements. Employees earn 10 or more days of vacation each year depending on length of service. The amount does not exceed the guidelines of the City Policy. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences are paid out of the employee's cost center.

Accumulated unpaid overtime is also accrued when incurred in the government-wide financial statements.

7. Post Employment Benefits

In addition to providing pension benefits, the City provides health insurance coverage for current and future retirees and their spouses as described at Note 10.

8. Long-term obligations

In the governmental-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the life of the related debt in the governmental activities and reported as a reduction of long-term debt in the proprietary funds.

In governmental fund financial statements, bond premiums, discounts, and issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt issuance expenditures.

9. Deferred inflows of resources

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an increase to net position that applies to a future period and is not

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

recognized as an inflow of resources (revenue) until that time. The City only has one type of item that qualifies for reporting in this category. The item is amounts in the governmental funds that were receivable and measurable at year-end but were not available to finance expenditures for the current year. This includes unavailable revenues from property taxes.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position.

One element of that reconciliation explains that "long-term liabilities, including bonds payable, settlement liability, and compensated absences, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$30,560,388 difference are as follows:

Bonds payable	\$ (23,885,000)
Shelby County Board of Education settlement liability	(4,265,436)
Deferred amount for issuance premium	(468,584)
Deferred amount for issuance discount	738,702
Accrued interest payable	(116,918)
Compensated absences - accumulated unpaid vacation	(1,208,302)
Compensated absences - accumulated unpaid sick time	 (1,354,850)
Net adjustment to reduce fund balance - total governmental funds to	
arrive at net position - governmental activities	\$ (30,560,388)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the governmental-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

expense. This is the amount by which capital outlays exceeded depreciation in the current period." The details of the \$3,674,433 difference are as follows:

Capital outlay	\$ 8,681,236
Depreciation expense	(5,006,803)
Net adjustment to increase net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ 3,674,433

Another element of that reconciliation states that "the issuance of long-term debt (e.g. bond, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items." The details of this \$4,477,939 difference are as follows:

Debt issued or incurred:	
General obligation bonds	\$ (9,070,000)
Settlement liability	(4,265,436)
Premium on current year issuance	(222,803)
Principal repayments:	
General obligation debt	2,620,000
Payment to escrow agent for refunding	5,670,000
Decrease in accrued interest payable	15,061
Amortization of issuance costs and bond premiums	36,537
Amortization of issuance discount	 738,702
Net adjustment to decrease net changes in fund balance - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ (4,477,939)

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A - Budgetary information

Under provisions of the City's charter, the Board of Mayor and Aldermen annually enact by ordinance the operating budgets of the general, special revenue, capital projects, enterprise

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

and internal service funds, which cannot exceed appropriation except by approval of the governing body.

An annual budget for the capital projects is adopted by individual funds. The total budgets of these funds constitute legal spending limits, requiring ordinance amendment. Transfers within the funds are accomplished by resolution of the Board of Mayor and Aldermen to authorize expenditures of various grants received and to adjust the individual fund budgets as required within the total dollar limitations of the budget ordinance. The Mayor may approve transfers between categories within a cost center without the governing body's approval. The Board must approve other transfers or requests for additional funds. Thus, departmental or cost center appropriations comprise a legal spending limit for governmental fund types, except for capital projects funds for which the project length financial plans are adopted. The City disperses its capital projects fund monies to various projects, which may cause a deficit within the project. However, the City adopts a positive Capital Improvements Program where funds can be transferred within the fund with appropriate approval from the Supplemental appropriations were required during the year and the governing body. accompanying budgetary data has been revised for amendments authorized by resolution during the year. The basis of accounting applied to budgetary data presented is consistent with the appropriate basis of accounting for each fund type.

B. Excess of expenditures over appropriations

For the year ended June 30, 2014, expenditures did not exceed appropriations in any fund.

C. Deficit fund balance

As of June 30, 2014, no fund had a deficit fund balance.

D. Budgetary basis of accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds.

NOTE 4 - DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

The City's cash and cash equivalents at June 30, 2014 were held by financial institutions which participate in the bank collateral pool administered by the Treasurer of the State of Tennessee. Participating banks determine the aggregate balance of their public funds

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

accounts for the City. The amount of collateral required to secure these public deposits must be at least 105% of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to protect their public fund accounts are pledged to the State Treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of custodial credit risk disclosure.

As of June 30, 2014, the City had the following investments:

Investment Type	Fair Value	Weighted Average Maturities (Years)
Domestic Common Stock	\$ 7,497,755	
Foreign Stocks	332,966	
Mutual Funds - Equity	24,382,401	
Mutual Funds - Fixed Income	6,672,456	
Mutual Funds - Balanced	376,801	
Miscellaneous	29,758,791	
U.S. Government Obligations	3,998,835	1.9
Total fair value	\$ 73,020,005	

The City invests in a diversified core fixed income mutual fund comprised of predominantly investment grade securities. These fixed income debt securities all fall within Level 1 of the hierarchy for valuation purposes under generally accepted accounting principles. Credit quality distributions for investments in fixed income debt securities, with credit risk as a percentage of total investments are approximately as follows at June 30:

U.S. Government Obligations						
Moody's	Amount	S&P	Amount			
Aaa	\$ 3,998,835	AA+	\$ 3,998,835			

<u>Interest Rate Risk</u> – The City manages its exposure to declines in fair values by:

- a. Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.
- b. Investing operating funds primarily in shorter-term securities or the Tennessee Local Government Investment Pool (LGIP), and limiting the average maturity of the portfolio to those established by TCA 6-5-106 for commercial paper and repurchase agreement and four years for investments in securities of the U.S. Treasury, Federal

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Government sponsored agencies, or certificates of deposit. However, the weighted average maturity value of the overall investment portfolio will not exceed twenty-four months.

<u>Credit Risk</u> – The City has adopted the investment policy established by TCA 6-5-106 for investments other than those held for Pension or OPEB benefits. This policy limits the City's investment options as follows:

- * Investments in commercial paper are limited to the highest rating issued by at least two rating services and have a remaining mature of ninety days or less.
- * Nonconvertible debt securities of the following federal government sponsored enterprises: the federal home loan bank, the federal national mortgage association, the federal farm credit bank, and the federal home loan mortgage corporation.
- * Investments in bonds are limited to obligations that are guaranteed as to principal and interest by the United States or any of its agencies.
- * Investments in the local government investment pool.

As of June 30, 2014, the City's investments consisted of investments in Tennessee's local government investment pool and nonconvertible debt securities rated Aaa by Moody's Investors Service.

<u>Concentration of Credit Risk</u> – The City diversifies its investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized. The City had investments in the following entities that comprised more than 5% of its total investments at June 30:

Federal Home Loan Bank	\$ 2,998,383	4.1%
Federal Farm Credit Bank	1,000,452	1.4%

Such concentrations are permitted by the City's investment policy.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

B. Receivables

Receivables as of year-end for the City's individual major funds and non-major, internal service, and fiduciary funds in the aggregate including the applicable allowances for the uncollectible accounts, are as follows:

		Other Governmental	Utility	Athletic Club	Nonmajor Enterprise	
	General	Funds	Fund	Fund	Funds	Total
Receivables:						
Property taxes	\$ 27,757,707	\$ -	\$ -	\$ -	\$ -	\$ 27,757,707
Customers and developers	-	-	-	=	277,941	277,941
Other	6,575,439	511,760	788,617	22,725	19,059	7,917,600
Gross receivables	34,333,146	511,760	788,617	22,725	297,000	35,953,248
Less: allowance for doubtful accounts	(1,699,767)		(35,764)	(18,909)	(78,391)	(1,832,831)
Net total receivables	\$ 32,633,379	\$ 511,760	\$ 752,853	\$ 3,816	\$ 218,609	\$ 34,120,417

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned as unearned revenue. At the end of the current fiscal year, unavailable revenue principally represents: 1) amounts relating to property taxes as described above and 2) reimbursable grant amounts received more than sixty days after year end for grant related expenditures made prior to year end.

C. Property Taxes

The City levies property taxes each November 1 based upon assessed valuations provided by the Shelby County Tax Assessor. Taxes are due by the last day of February following the November 1 levy date. The various types of property are assessed at a percentage of estimated appraised value on January 1 of each year as follows:

	Assessment Rate	Assessed Value
Residential real property	25%	\$ 1,086,542,975
Farm real property	25%	1,630,500
Commercial real property	40%	294,463,130
Public utilities real property	55%	12,946,203
Commercial personal property	30%	26,852,980
		\$ 1,422,435,788

The estimated actual value was \$5,292,064,151 making the overall assessed value 26.9% of the estimated actual value based on the State of Tennessee's certified Equalization Ratio for Shelby County of 100%. Current tax collections for the year ended June 30, 2014 were 98.5% of the tax levy. The property tax levy is without legal limit. The rate, as permitted by

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Tennessee State Law and City Charter, is set annually by the Board of Mayor and Aldermen and collected by the City Clerk. The property tax rate for the year ended June 30, 2014 was \$1.93 per \$100 of assessed value.

A summary of changes in property taxes is as follows below:

Year	Taxes Receivable June 30, 2013	Taxes Levied And Accrued	Collections And Adjustments	Taxes Receivable June 30, 2014
2004 & Prior	\$ 9,428	\$ -	\$ -	\$ 9,428
2005	17,606	-	-	17,606
2006	15,234	-	1,303	13,931
2007	13,488	-	121	13,367
2008	24,595	-	1,013	23,582
2009	39,279	-	10,828	28,451
2010	56,193	-	12,731	43,462
2011	91,282	-	36,773	54,509
2012	319,699	-	212,069	107,630
2013	27,203,149	-	26,805,236	397,913
2014		27,047,828		27,047,828
	\$ 27,789,953	\$ 27,047,828	\$ 27,080,074	\$ 27,757,707

The City of Germantown actively pursues collection efforts for delinquent property taxes.

Total depreciation expense - business-type activities	\$ 2,340,283

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Shelby County Board of Education donated education assets totaling \$3,138,600 in land, \$46,463,100 in buildings, \$293,300 in improvements other than buildings, and \$823,000 in machinery and equipment to the City during the year. The assets were valued at fair market value and were capitalized.

The Germantown Charity Horse Show made an in-kind contribution to the City totaling \$250,000 for all major upgrades completed at the stable at Farm Park. The improvements were valued at fair market value and were capitalized as buildings.

E. Construction commitments

The government has active construction projects as of June 30, 2014. At year end the government's commitments with contractors are as follows:

Function / Activity	Commitmen	
Major Roads	\$	544,717
Intersections		112,299
Drainage		1,470,526
Parks & Recreation		120,000
General Government		408,825
Utility		1,060,315
	\$	3,716,682

F. Interfund Receivables, Payables, and Transfers

On October 31, 2000, the General Fund advanced \$2,500,000 for an expansion project at the Germantown Athletic Club. The Germantown Athletic Club is responsible for funding the expansion. The agreement between the Germantown Athletic Club and the General Fund is that the amount will be paid back over twenty years.

Advances from/to other funds

Receivable Fund	Payable Fund	 Amount
General	Athletic Club	\$ 875,000

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

The composition of interfund transfers for the year ended June 30, 2014, is as follows:

	Transfer In:					
	General	Nonmajor	Utility	Nonmajor		
Transfer out:	Fund	Governmental	Fund	Enterprise	Total	
General Fund	\$ -	\$ (4,045,000)	\$502,201	\$ (175,000)	\$ (3,717,799)	
Nonmajor Governmental	3,930,000	115,000	-	-	4,045,000	
Utility Fund	(502,201)	-	-	-	(502,201)	
Nonmajor Enterprise	175,000				175,000	
	\$3,602,799	\$ (3,930,000)	\$502,201	\$ (175,000)	\$ -	

Transfers from the general fund were made to provide sufficient positive fund balance within the special revenue, capital projects, and enterprise funds. Transfers from the utility fund to the general fund are payment in lieu of taxes.

G. Long Term Debt

General obligation bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. There are no specific allocations of property tax or other revenue sources for debt service.

Settlement liability

The City entered into a settlement agreement with the Board of Commissioners of Shelby County, Shelby County, Tennessee, and the Shelby County Board of Education. The Germantown Board of Education agreed to pay the Shelby County Board of Education \$355,453 per year for twelve years with the first payment due by November 1, 2014 and the remaining payments due by November 1 of each year following. The City elected to establish the liability incurred through the settlement agreement at its present value with a discount rate of 3.33%. For the year ended June 30, 2014, the City recorded a net liability of \$3,526,734 and education legal expense for the same amount in the government-wide financial statements.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Revenue bonds

The City also issues bonds where the City pledges income derived from the acquired or constructed assets to pay debt service.

Advance and current refunding

The City issued \$9,070,000 of General Obligation Series 2013A and B. The Series 2013B obligation was a refunding of bonds to provide resources to purchase U.S. Government securities that were place in an irrevocable trust for the purposes of generating resources for all future debt service payments of \$5,670,000, Series 2005. As a result, the refunded bonds were considered to be defeased and the liability has been removed from the governmental activities column of the statement of net position. The par amount of the refunded bonds was \$5,670,000 and the issue of the new bonds at par \$5,570,000. The new bonds were issued at a premium. The net present value savings for the new bonds is \$360,413. The advance refunding was undertaken to reduce total debt service payment over the next several years.

Changes in long-term liabilities

Long-term liability activity for the year ended June 30, 2014, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:	Balario	7 taditione	rtoddotiono	Balarioo	One rear

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

For the governmental activities, compensated absences are generally liquidated by the general fund. No interest was capitalized for the year ended June 30, 2014; interest incurred and charged to expense totaled \$831,623. For the governmental activities, \$2,021,211 of bond proceeds were not spent as of June 30, 2014. As such, these proceeds were not included in the calculation of investments in capital assets, net of related debt.

Bonds and similar debt payable at June 30, 2014, are comprised of the following individual issues:

Governmental activities:	Interest <u>Rates</u>	Original <u>Issue</u>	Outstanding at Year End
Bonds payable:			
2005 Serial Bonds	2.7% - 3.85%	\$ 9,695,000	\$ 130,000
2006 Serial Bonds	4.0%	5,555,000	2,245,000
2009 Serial Bonds	3.0% - 4.2%	9,635,000	6,900,000
2011 Serial Bonds	2.0% - 3.25%	6,025,000	5,540,000
2013 Serial Bonds (Series A)	2.25% - 4.0%	3,500,000	3,500,000
2013 Serial Bonds (Seried B)	2.25% - 4.0%	5,570,000	5,570,000
		\$ 39,980,000	23,885,000
Business-type activities:			
Bonds payable:			
2006 Revenue Bond	4.0%	\$ 4,255,000	1,920,000
2008 Revenue Bond	3.0% - 4.0%	5,000,000	2,725,000
		\$ 9,255,000	4,645,000
			\$ 28,530,000

Annual debt service requirements to maturity are as follows:

Years Ending	Government Activities		Business-ty	pe Activities
June 30	Principal	Interest	Principal	Interest
2015	\$ 2,480,000	\$ 686,986	\$ 955,000	\$ 174,437
2016	2,250,000	626,033	990,000	137,200
2017	2,300,000	565,833	1,035,000	97,100
2018	1,970,000	510,608	1,075,000	55,300
2019	1,335,000	464,883	590,000	11,800
2020 - 2024	6,280,000	1,695,689	-	-
2025 - 2029	5,080,000	822,227	-	-
2030 - 2034	2,190,000	153,444	<u> </u>	
	\$ 23,885,000	\$ 5,525,703	\$ 4,645,000	\$ 475,837

Although the City is not subject to any state debt limits, the City has developed a debt policy that limits the amount of debt it may obtain: (1) net debt service may not exceed 12% of

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

general fund expenditures; (2) direct debt may not exceed 4% of assessed property value; (3) direct debt may not exceed \$1,500 per capita income; and (4) per capita debt may not exceed 3% of per capita income. The City's full faith, credit and taxing power are pledged to the repayment of all general obligation bond principal and interest and the City is contingently liable for the repayment of revenue bond principal and interest.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

NOTE 5 - EMPLOYEE RETIREMENT SYSTEM

A. Plan Description

The City of Germantown is the administrator of a single-employer public employee retirement system ("PERS") established and administered by the City to provide pension benefits for its employees. The PERS is considered to be part of the City of Germantown's financial reporting entity and is included in the City's financial reports as a pension trust fund. The Plan does not issue a stand-alone financial report. Plan benefits and other provisions are established by City and state statutes. The City's Board of Mayor and Aldermen is responsible for establishing benefits and approving all plan amendments.

The City amended the retirement plan in 2001. All employee retirement benefits are provided through a single employer, defined benefit plan. Under the Plan, all full time permanent employees at least 18 years of age (age 21 for Emergency Services Employees) participate and are vested after 10 years of service, 5 years if the employee was hired before January 1, 2003. Benefits are calculated at 2.25 percent of Average Monthly Earnings multiplied by the number of years of service subject to a 30 year maximum. The maximum accrual is 67.5 percent of base salary.

The City froze any new entrances to the existing retirement plan and established a new plan for new hires on or after July 1, 2013. Under the new plan there is a six month wait to enter the plan and must be 21 years of age. Under the new plan the employee must contribute 5% of their pay. The City matches the 5% and guarantees a 5% return. The vesting is 10 years of service. The new plan is portable and may be taken with the employee after vesting. Currently, there are no vested employees in the new plan.

At June 30, 2014, PERS membership consisted of:

Retirees and beneficiaries currently receiving benefits	141
Terminated employees entitled to benefits	113
Current employees: Vested Nonvested Total	211 134 599

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

B. Funding Policy

Emergency Services employees are required to contribute to the PERS. This contribution pays for an unreduced normal retirement benefit at age 55 to age 65. The normal retirement date for all other employees remains at age 62. The City's annual contribution is based on the actuarially determined contribution amount. Benefits and contributions are established by the City and may be amended only by the Board of Mayor and Aldermen.

C. Basis of Accounting

PERS financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized as revenues when due, pursuant to formal commitments, as well as statutory or contractual requirements. Benefit payments and refunds to participants are recognized when due and payable in accordance with the terms of the plan.

D. Funded Status and Funding Progress

As of July 1, 2014, the actuarial accrued liability for benefits was \$73,227,257 of which \$8,583,256 was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$19,209,705 and the ratio of the unfunded actuarial accrued liability to the covered payroll was 45%.

E. Plan Expenses

Administrative expenses of the Plan, which include investment fees, trustee fees and actuary fees, are financed through both the plan and the general fund. Certain administrative functions are performed by City employees and are not reimbursed by the Plan.

F. Investments

Investment policy. The PERS's policy in regards to the allocation of invested assets is established and may be amended by the Board of Mayor and Aldermen. The following is the Board of Mayor and Aldermen's adopted asset allocation policy as of June 30, 2014:

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Asset Class	Target Allocation
	4.407
Common stock - core	44%
Government securities	30%
Treasury bills	10%
Money market accounts	10%
Insurance contracts	6%
	100%

Method used to value investments. PERS investments, other than contracts, are reported at fair value. Contracts are stated at cost plus interest accrued at contract rates. Investment income is recognized as earned. Plan assets do not include any securities of the City of Germantown, nor has the Plan made any loans to the City.

Rate of return. For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 18.3%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

G. Net Pension Liability

The components of the net pension liability of the City at June 30, 2014, were as follows:

	Increase/(Decrease			
	Total Pension	Plan Fiduciary	Net Pension	
	Liability	Net Position	Liability

porcontago or the total periolori liai	Jy	00.2070		

^{*}Ad Hoc Cost of Living Adjustment

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of July 1, 2014, using the aggregate actuarial cost method. Because the aggregate actuarial cost method does not identify or separately amortize unfunded actuarial accrued liabilities, information about the Plan's funded status and funding progress has been prepared using the entry age normal actuarial cost method for that purpose, and the information presented is intended to serve as a surrogate for the funded status and funding progress of the Plan. Significant actuarial assumptions used in the computation included (a) a rate of return on the investment of present and future assets of 8% a year compounded annually, (b) projected salary increases 4.0% per year, (c) no post-retirement benefit increases, and (d) RP 2000 Mortality Table. The inflationary rate is 2.5%. Payroll for employees covered by this plan was \$19,209,705. For financial reporting purposes, the projection of benefits does not explicitly incorporate the potential effects of the legal limit on employer contributions.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period January 1, 2013 through June 30, 2014.

Discount rate. The discount rate used to measure the total pension liability was 8.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from the City will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the City calculated using the discount rate of 8%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7%) or 1-percentage-point higher (9%) than the current rate:

	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)
City's net pension liability	\$ 17,307,328	\$ 8,583,256	\$ 1,403,079

NOTE 6 - INTERFUND BALANCES AND TRANSACTIONS

Unrestricted cash in the various funds of the City are pooled in one fund for investment purposes. At each month-end the interfund balances reflect each funds portion of the cash/investment pool.

Interest income is allocated to each fund based on the interfund balances at the end of the month.

NOTE 7 - COMMITMENTS AND CONTINGENCIES

Total rental expense for all funds for the year ended June 30, 2014, was \$508,276. There are no non-cancelable leases as of June 30, 2014.

Construction contract commitments at June 30, 2014, totaled \$3,716,682.

The City is a party to a number of various types of lawsuits, many of which normally recur in governmental operations. The ultimate outcome of the actions is not determinable, however, City officials believe that the outcome of these proceedings, either singularly or in

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

the aggregate, will not have a materially adverse effect on the accompanying financial statements.

NOTE 8 - RISK MANAGEMENT

The City maintains a practice of carrying conventional casualty insurance to limit the risk of loss associated with tort liability claims, property damage or destruction, employee injuries and other unanticipated casualties or natural disasters. Instead of commercial insurance however, the City has elected to participate as a member in the Tennessee Municipal League Risk Management Pool ("TML Pool"), a cooperative risk sharing arrangement among Tennessee communities that works in many ways like a traditional insurer. Members can obtain typical insurance coverage limits and deductible options at reasonable rates according to their risk tolerance while the TML Pool provides traditional underwriting, re-insurance, claims processing and loss control services. Unlike commercial insurance, the TML Pool offers the opportunity to earn a pro-rata refund of the surplus premiums according to the City's premiums paid and its favorable loss experience in recent years.

Through the TML Pool, the City maintains general coverage for its property, workers compensation and liability insurance. Subject to limits for certain types of risk, the property insurance covers the cost of replacing buildings, furnishings, public infrastructure, and specifically defined equipment for most types of losses in excess of a \$25,000 deductible amount. Worker compensation claims are covered up to the statutory limits for employee injuries after the City pays a maximum \$10,000 deductible amount. The liability coverage includes general liability risks such as personal injury, automobile liability, and public official or law enforcement errors and omissions up to the limits allowed under the Tennessee tort liability laws and after the City-paid deductible amounts of \$5,000.

Given its geographical location and the risk of significant infrastructure loss, the City considers it prudent to obtain supplemental insurance for excess earthquake losses that exceed the basic limits provided by the TML Pool. The City has elected to purchase the optional \$10 million earthquake coverage over the primary \$5 million coverage provided by the TML Pool.

In addition to the annual premiums for insurance coverage, the payment of the TML Pool deductible amounts for each loss occurrence and the self-insured losses for passenger vehicles and other lower value equipment is funded by the annual operating budgets for each department. And as a contingency for losses that may exceed the limits of coverage provided by conventional insurance or self-funding, the City annually designates a portion of its General Fund Balance as a reserve for emergencies.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

There have been no reductions in insurance coverage and no liabilities in excess of insurance coverage for the past three fiscal years. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Changes in the balances of claim liabilities during the previous fiscal years are as follows:

	ear ended ne 30, 2014	ear ended ne 30, 2013
Unpaid claims, beginning of fiscal year* Incurred claims* Claim payments	\$ 85,900 167,700 (178,500)	\$ 80,200 151,826 (146,126)
Unpaid claims, end of fiscal year*	\$ 75,100	\$ 85,900

^{*}All amounts include "Incurred But Not Reported"

NOTE 9 - LEASE REVENUE

The City leases various City-owned properties to corporations for cellular towers. The leases range from 20 to 25 years. The minimum lease payments the City will receive are as follows:

2015	\$ 338,707
2016	340,619
2017	346,337
2018	333,726
2019	232,495
Thereafter	2,932,877
	\$ 4,524,761

NOTE 10 - POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

In addition to the pension benefits described in Note 5, the City provides certain post-retirement health care benefits to employees who retire from the City under the provisions of PERS. The City, in conjunction with PERS, has established benefit provisions and contribution obligations. The premium charged retirees is a percentage of the group rate. Prior to January 1, 2008, the City's insurance became secondary to Medicare Insurance. After January 1, 2008, the plan was changed whereby future retirees could only obtain the City's dental and prescription drugs. The plan was changed on January 1, 2014, whereby employees who retire on or after January 1, 2014, cannot obtain the City's dental and

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

prescription drug. At year-ended June 30, 2014, 71 retirees met the requirement for participation and participated in the plan. The City Trust paid \$610,283 in claims under the plan for the year-ended June 30, 2014.

In addition, the City provides certain post-retirement split-dollar life insurance benefits to certain executive employees who retire from the City and have worked a minimum of 10 years, and officials who have been elected to a second term. Currently there are 15 employees/elected officials eligible for this post-retirement benefit. The City will pay 100% of the premium for life insurance for eligible retirees for life.

A. Plan Description

The City of Germantown is the administrator of a single-employer Other Post Employment Benefit plan (OPEB). The plan provides for continuation of medical insurance benefits for certain retirees and their spouses and can be amended by action of the City. The Plan does not issue a stand-alone financial report.

B. Funding Policy

The required contribution rates of the employer and the members will vary depending on the cost of the plan as determined by the City. The City's Annual Required Contribution has been determined through the use of an Actuarial Group.

C. Basis of Accounting

The accrual basis of accounting is used. The fair market value of assets, if any, is determined by the market value of assets, if any, paid by a willing buyer to a willing seller.

D. Annual OPEB Cost and Net OPEB Obligation

The City's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The City has engaged an actuary to calculate the ARC and related information per the provisions of GASB Statement 45 for employers in plans with more than one hundred total plan members. The ARC represents a funding level that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The amortization method used is a level dollar, closed approach which amortizes the initial unfunded actuarial accrued liability over thirty years, actuarial gains/losses over ten years, and plan amendments over fifteen years.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and the City's net OPEB obligation to the Trust at June 30, 2014:

Annual Required Contribution	\$ 684,360
Interest on net OPEB Obligation	-
Adjustment to Annual Required Contribution	
Annual OPEB Expense	 684,360
Contributions made	684,360
Increase (decrease) in net OPEB obligation	 -
Net OPEB obligation - beginning of year	
Net OPEB obligation - end of year	\$ -
Percent of expense contributed	100%

rercent or expense contributed

The City's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation is as follows:

Fiscal	Annual	Percentage	Net
Year	OPEB	of ARC	OPEB
Ending	Cost	Contributed	Obligation
6/30/2012	\$ 923,696	100%	\$ -
6/30/2013	1,423,007	100%	-
6/30/2014	684,360	100%	-

E. Funded Status and Funding Progress

As of June 30, 2014, the actuarial accrued liability for benefits was \$10,247,083 of which \$4,086,884 was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$19,209,705, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 54%. The actuarial value of the assets for other post employment benefits as of July 1, 2014 is \$6,160,199.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information as

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Exhibit B-2, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

F. Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and the plan members. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The actuarial cost method is the projected unit credit cost method. The investment return was assumed to be 7.5% inclusive of 2.5% inflation, 0% projected salary increases, 0% post-retirement benefit increases, and a graded healthcare cost trend rate starting at 9% and grading down to 5% over 9 nine years. The following assumptions were made:

i. Measurement Date

July 1, 2008

ii. Discount Rate as of June 30, 2014

Seven and one-half percent (7.5%) per year compounded annually. This is the rate used to discount future benefit liabilities into today's dollars.

iii. Mortality Table

The 1983 Group Annuity Mortality Table was used.

Mortality Assumption
Annual Death Rate Per 1,000 Participants

Age	Male	Female
25	0.376	0.207
35	0.773	0.475
45	1.508	1.124
55	3.624	2.717
65	12.737	9.706

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

iv. Withdrawal From Service

Withdrawal Termination

Applied Termination Rate Per 1 000 Participants

Annual Termination Nate Fer	1,000 i articiparits
Age	Rates
25	52.704
35	44.736
45	32.149
55	3.344
65	0.000

v. Opt-out Rates

It is assumed that active employees would participate in City-paid medical coverage in retirement. Current active employees who have opted out of medical coverage were assumed to elect medical coverage in retirement. Actual elections for retirees were used.

vi. Medicare

Medicare is expected to cover the same portion of costs as it currently does.

vii. Marriage rates

80% of active participants were assumed married. Females are assumed to be three years younger than males. Employees who currently have elected to cover their spouses are assumed to continue to do so upon retirement.

viii. Health Care Trend Rate

Health Care Cos	st Trend Rate
Initial Rate	9.0%
Ultimate Rate	5.0%
Grading Period	9 years

ix. Salary Scale

No salary increases were assumed since benefits are not based on compensation.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

x. Retirement Rates

Employees are assumed to retire in accordance with the following schedule:

	General Services	Emergency Services
Age	Employees	Employees
50	0%	5%
51	0%	5%
52	0%	5%
53	0%	5%
54	0%	5%

61	10%	10%
62	20%	100%
63	20%	
64	20%	
65	100%	

xi. Change in Assumptions

None.

xii. Change in Plan provisions

Prior to January 1, 2008, the City's insurance became secondary to Medicare Insurance. After January 1, 2008, the plan was changed whereby future retirees reaching age 65 could only obtain the City's dental and prescription drugs. The City will offer a subsidy to Medicare eligible retirees in the amount of \$200 for single coverage and \$300 for family coverage.

As of May 1, 2009 employees taking early retirement are no longer eligible to participate in the City's Health Care Plan. This was amended July 1, 2012 to allow early retirement employees to participate in the City's Health Care Plan, provided they have been a member in the Plan for a minimum of 15 years immediately prior to their retirement date.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

Effective January 1, 2012, any retiree or dependent who becomes eligible for Medicare at any age will no longer participate in the City's Health Care Plan.

Effective January 1, 2014, any employee who retires after January 1, 2014 and obtains the age of 65 will no longer be eligible to receive the City's dental or prescription drug. Also, the subsidy to Medicare eligible retirees is limited to the retiree at \$200.

G. Allocation of Post Employment Benefits

The City's allocation of their OPEB liability to the City's functions are as follows:

Government Activites:	
General government	\$ 138,004
Public safety	371,159
Community services	15,950
Transportation and environment	 67,701
Total governmental activities OPEB expense	\$ 592,814

NOTE 11 - SELF-INSURED GROUP HEALTH INSURANCE BENEFITS

The City of Germantown maintains a self-insured Group Health Insurance Fund for its active and retired employees and their dependents, funded by participation of both the City and its employees.

The schedule below presents the changes in the liabilities for the past two years for the Group Health Insurance Fund.

		2014	2013
Incurred Claims But Not Reported at Beginning of Fiscal Year	\$	401,776	\$ 400,645
Claims Submitted for Fiscal Year	_	3,687,030	4,678,740
Total Available for Claims Payments		4,088,806	5,079,385
Claims Paid During Fiscal Year		3,608,675	4,677,609
Incurred Claims But Not Reported at End of Fiscal Year	\$	480,131	\$ 401,776

The City maintains a liability in the Group Health Insurance Fund in the amount of \$480,131 which is comprised of medical claims incurred prior to June 30, 2014 but not reported until after June 30, 2014, and was estimated by a third party administrator and is included in accounts payable of the governmental activities internal service funds.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2014

NOTE 12 – DONOR-RESTRICTED ENDOWMENT

Library Endowment Fund. In December 2006 the City received \$250,000 as a Library Endowment, the earnings and corpus of which are to be used to support the function of the Library relative to the collection, preservation and presentation of materials and to promote greater appreciation and understanding of the history of the City and surrounding areas and their inhabitants. The corpus and earnings are held in Tennessee's Local Government Investment Pool and earmarked for use as directed by the Library Endowment Committee. For the year ended June 30, 2014, the net amount of appreciation on investments of the endowment was \$246.

NOTE 13 – SUBSEQUENT EVENTS

The City acquired a short-term Revenue Anticipation Note, series 2014, on July 10, 2014 in the amount of \$8.6 million to be used to fund the cash needs of the Germantown Municipal School District. The short-term note will be retired before June 30, 2015.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS

For the Year Ended June 30, 2014

NOTE 1 – BASIS OF PRESENTATION

The schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Germantown, TN (the City) under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirement of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organization.* Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net postion, or cash flows of the city.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the OMB Circular A-122, Cost Principles for Non-profit Organization, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity contract numbers are presented where available.

NOTE 3 - RECONCILIATION OF THE SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS TO THE FINANCIAL STATEMENTS

The following is a reconciliation of expenditures per the schedule of expenditures of federal and state awards to the revenue balances in the City's financial statements:

Total grant revenue per governmental funds financial statements	\$ 3,195,374
Change in deferred revenue at the fund level Non-federal and non-state grants	 (822,412) (75,435)
Total federal and state awards	\$ 2,297,527

STATISTICAL SECTION

This part of the City of Germantown's comprehensive annual financial report present

This part of the City of Germantown's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u> <u>Page</u>

Financial Trends 121

These exhibits contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity 126

These exhibits contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

Debt Capacity 134

These exhibits present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

138

These exhibits offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place, to help make comparisons over time and with other governments.

Sources: Unless otherwise noted, the information in these exhibits is derived from the comprehensive annual financial reports for the relevant year. The city implemented GASB Statement 34 in 2003; exhibits presenting government-wide information include information beginning in that year.

Notes:

- 1. Figures subject to revision due to amended taxpayer returns.
- 2. Figures represent local sales tax collected by merchants during the period, not disbursements from the Department of Revenue.
- 3. Changes in local telecommunications sourcing rules in 2003 reduced the number of taxpayers reporting in the Transportation and Utilities sector.
- 4. Does not include Germantown's share of county clerk or out-of-state taxpayer amounts.
- 5. Blank cells are suppressed to avoid potential disclosure of confidential information.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Sharon Goldsworthy, Mayor and the Board of Aldermen City of Germantown, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the statement of budgetary comparison for the general fund, and the aggregate remaining fund information of the City of Germantown, Tennessee, (the "City") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated November 25, 2014. Our report includes a reference to other auditors who audited the financial statements of GPAC, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material

weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Honorable Sharon Goldsworthy, Mayor and the Board of Aldermen City of Germantown, Tennessee

Report on Compliance for Each Major Federal Program

We have audited the City of Germantown, Tennessee (the "City")'s compliance with the types of compliance requirements described in *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended June 30, 2014. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the requirements referred to above. In planning and performing our audit, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Memphis Tennessee November 25, 2014
